

Collegiate Sports

Your Toughest Opponent Is In The Locker Room.

Many collegiate teams and student athletes are feeling the affects of harmful germs. One outbreak could cripple an entire athletic program; potentially costing millions of dollars in revenue and bad publicity. The health of student athletes is critical; yet, at risk every time they walk into their own locker room. Though it has always been a problem, recent outbreaks of the "Super Bug," MRSA, have created wide spread awareness of the dangers lurking on every surface.

Due to the nature of sports, athletes are at a high risk of contracting very harmful bacteria and viruses. Whether football, baseball, basketball, soccer, hockey, or any other sport, all shared athletic equipment creates a breeding ground for infection. Protecting your athletes is a very important job, one that should not be taken lightly.

Flexibility To Tackle Any Environment

SaniGuard® Dry Sanitizing Surface Spray and Total Release Foggers give you a powerful weapon in fighting the spread of crippling infections. EPA registered, and patented SaniGuard kills 99.99% of germs on contact.

SaniGuard is helpful in sanitizing high usage objects and traffic areas, known as germ "hot spots," which include:

- Door Handles and Hand Rails
- Water Fountains
- Restroom and Shower Fixtures
- Locker Rooms and Offices
- Personal and Shared Team Equipment
- Charts, Clipboards, and Whistles
- Weight Rooms and Exercise Equipment
- Team Transportation
- Telephones and Office Equipment
- Computer Keyboards and Mouse
- Dorm Rooms and Community Areas

SaniGuard is even safe for use on electronics and food contact surfaces (no potable rinse required).

Immediate Action—Unlimited Protection

Our product has undergone extensive independent laboratory testing and is the only dry-on-contact sanitizer available. Unlike competitive products that can have you waiting up to ten minutes to use surfaces after treating, with our patented formula there is no waiting, no wiping, no mess—and it is safe for use on all surfaces.

Educate Your Athletes

While using SaniGuard kills 99.99% of harmful germs, to further protect your student athletes make sure they are aware of these key points:

- If you suspect an infection of any kind, seek medical attention and notify your coaches
- Always keep open wounds covered with a clean bandage
- Sanitize shared equipment before use
- Do not share towels, or clothing items with other athletes
- Sanitize or wash hands after coming into contact with an open wound, dirty clothing, or used equipment

To order please contact your local distributor or DEM Technology, LLC. • Phone: (937) 223-1317
